Valuable Real Estate

FOR SALE.

A Large two story BRICK BUILDING, situated on Mill street, in the village at Orono, comprising two stores and two convenient tenements of six good rooms in each, over the stores. There is an excellent cellar under the whole building, and two rain-water cisterns, with pumps attached to each.

Also, a good double-tenement Wooden Building, in the rear of said brick building. Each tenement has six rooms, all neatly finished, painted and papered, and in good order. Also two tenements have each a cistern of rain-water, with pumps attached. There is also a good Wood Shed, and other out-buildings for the convenience of the four separate tenements.

These buildings are owned by Messrs. A. Partridge & Co., of Boston, who will give a perfect title, and a rare bargain to the purchaser.

Unless previously disposed of at private sale, the whole will be sold at Auction, on the premises, June 16th, 1866, at 2 o'clock P. M. For terms, and further information, apply to

NOTICE

—TO—

ROAD BUILDERS.

SEALED PROPOSALS will be received until June 1st, at noon, for building the Granger Turnpike, from Princeton to Milford, a distance of about forty-five miles; said road to be graded and cleared of wood, stone, scurf and leaves, 20 ft wide, and ploughed from the centre, and turnpiked 20 feet wide from lowest part of ditches; the centre of the road to be 18 inches above the bottom of ditches, and well covered with gravel or pan earth. All wood to be cut down four rods wide, including the 20 feet grubbed. Said road to be well drained, and all necessary bridges and culverts made of suitable material; all of said work to be done in a workmanlike manner, and completed by the first day of December next, to the acceptance of a committee appointed by the Governor of Maine and the Turnpike Company. The payments to be made as follows:—one fourth of the whole amount when the job is one-third done; one fourth when the job is two-thirds done, and the balance when the job is completed to the acceptance of said Committee.—Also said Committee to say when sufficient work is done to entitle the parties to the payments.

Proposals will be received for the whole or for sections of said road by either of the members of the Committee. Plan and survey of the road can be seen by calling on W. W. Sawyer, at his office at Calais. The Committee will reserve the right to change the location from the present survey, but not to increase the distance or expense of building the whole, and also the right to accept such proposals as they shall consider best.

CITY OF BANGOR.

IN CITY COUNCIL.

ORDERED, That the Street Engineers be, and are hereby directed to run a line to widen French street, commencing on Hancock str. at a point on the Easterly line of said number one, according to Burnham's plan of Kenduskeag Point, about sixty-seven feet Easterly on the Easterly line of Exchange street; thence running Southerly and on a line parallel with Exchange street to Washington street; also, to run a line to widen said French street, beginning on Hancock st. at a point about ninety two feet Easterly from the East line of Exchange street; thence running Southerly parallel with said Exchange street to Washington street,—and report the damages and benefits which will result on widening said street by said lines respectively.

GEO. W. SNOW, City Clerk.

A true copy of record.

Attest—GEO. W. SNOW, City Clerk.

In pursuance of the above Order, the Street Engineers give notice that they will, on Thursday, the 31st day of May inst., at ten o'clock, A. M., proceed and widen said street, in accordance with the above order, commencing as above. And all persons interested in said premises are requested to be present at the time and place, where they will be heard, that said Engineers may estimate and decide the damage any individual may sustain by the widening of said street.

TELEGRAPHIC.

Despatches to the Evening Times.

From Mexico—Withdrawal of French Troops—Rumors that Maximilian is about to Abdicate.

MEMPHIS, May 23.

The Congressional Committee to day examined Generals Steadman and Fiske, and were also engaged in looking over the records to the military commission of the riot.

Gen Fiske made a haul to day of labor brokers, of the class who have been demoralizing the Freedmen by inducing them to insist of their employers higher wages.

Many were bounty jumpers during the war.

ST. LOUIS, May 23

The steamer Morning Star was burned at Mound City to night.

The two Presbyterian Assemblies met to night for the first time in three years. Addresses were made by several prominent clergymen from different parts of the country.

NEW YORK, May 24.

Dates from Vera Cruz 12th, and City of Mexico 10th, state that the contemplated withdrawal of French troops caused considerable excitement.

The probabilities were that Maximilian would abdicate before the withdrawal. The report of the withdrawal of 10,000 French troops, and the arrival of a battalion of the foreign legion is confirmed. The concentration of French troops preparatory to withdrawal, was currently reported.

A Colonel and Lt. Colonel of the Imperial forces were murdered by their own men at Rioverde.

United States Minister Corwin had started for home.

Havana dates of the 19th state that a special messenger from Maximilian on his way to Europe, had passed through that city.

Three slavers had been discovered on the coast, and Spanish cruisers sent after them.

A cattle disease, said to be rinderpest, had broken out near Cardenas and Matanzas.

The Tribune learns that besides Charles O'Connor and George Shea, heretofore mentioned as counsel for Jeff Davis, Brady of this city, Wm B. Reed of Philadelphia, Brown of Baltimore, and Pugh of Ohio, have been retained. The trial is understood to commence on the first Monday in June in Richmond.

NEW YORK, May 24.

The Military departments of North and South Carolina, Georgia and Alabama, have been abolished. North and South Carolina will constitute a new department under Gen Sickles. Georgia and Alabama will form another under Gen. Woods.

NEW YORK, May 24.

The Commercial says:—

The money and stock market show a decided improvement. Applications for loans are still very active, but 7 per cent. firms of good standing are able to borrow all they require. The banks do not appear disposed to encourage gold speculation. Some of the leading institutions refuse to make a further advance upon gold except to customers whom they do not feel at liberty to disappoint.

This morning the market was very active and higher throughout, except Erie and Illinois Central, both of which are kept down by the expectation of a return of large amounts of shares from London.

Governments, though active continued weak.

MEMPHIS, May 24.

Steamer Madison struck a snag and sunk at Poverty Point, on Monday last. No lives lost. The Louisville brought up the passengers. The boat was insured in Cincinnati, and was insured for $75,000.

HOW THE "DEMOCRACY" RULES NEW YORK. The wealthy and business men of New York city are now finding out some of the beauties of the rule of rowdyism and deviltry (we should have said "democracy") which they have permitted to grow up in that great Babylon within the last twenty years, because they have been "too busy to attend to politics." We quote from a recent letter to the Providence Journal:

NEW YORK May 19.

A proposition has been some days pending in the Common Council of this wretched, insulted, outraged and demoralized city, to widen fifth Avenue. Not exactly to widen it, but to desecrate it—to render it as unwholesome, as unhandsome and as loathsome as Baxter street, in the Five Points.

Fifth Avenue, as you may remember, runs from Washington Park to Hudson river, a distance of eight or nine miles. About two miles of it is built up—there are erected on either side of it stately palaces, the ornaments, the pride not only of the city, but of the State itself. It is very wide, much wider than Broadway; and when it was surveyed and laid out, some thirty-five years ago, it was supposed that neither its dimensions nor its tranquility would be invaded. Men of wealth, who had made up their minds to retire from the busy haunts of life, selected and purchased on its margin sites for building, and there erected what are literally and justly denominated palaces.

In front of these princely establishments there are stately and costly porticos, verandas and incidental court yards, constructed at vast expense, and giving to the Avenue an aspect of life and loveliness and beauty, which none but vandals and barbarians would seek to destroy.

The proposition now is to destroy all these ornamental evidences of wealth and splendor; tear down the massive steps and stoops and picturesque court yards, and throw the whole Avenue, with the exception of a narrow side-walk into the common highway.—There is no apology for this meditated outrage. The Avenue is not connected with the immediate commerce of the city, and never will be if let alone, but will remain to add to the grandeur and beauty of the great metropolis of the Western world. Nobody has asked for the proposed widening or desecration. It is not required by any exigency; and there cannot be a doubt that every respectable and honorable minded New Yorker is opposed to it

The proposed outrage was conceived by a small junto of demagogues and desperadoes who hang about City Hall, and who are continually rioting on the rights and property of the citizens. There is not in the "ring," as the junto is called, a single individual who is worth a shilling. But they manage to get into position among the electors, and then dictate to the Common Council. Their present object, it is believed by many, is not to widen Fifth Avenue, or desecrate it in fact, but to frighten the property holders and levy blackmail on them.—They will, I hope, in this instance be successfully checkmated.

PREPARATORY. The Belfast Age says: "The Union Republican County Committee of our county had a meeting in this city on Saturday for the purpose of appointing two committees, and taking other necessary action to keep up our present efficient organization. The members of the committee represented the Union column in their respective localities as standing firm and unbroken; the people as full of indignation at Johnson's perfidy and his base betrayal of the party that elected him, and, in sentiment, in advance of Congress upon the matter of reconstruction. The committee voted to hold the annual county convention on the 25th of August

A LOST ART RE-DISCOVERED. A correspondent of the Cincinnatti Gazette states that a Mr Dismuk of Upper Sandusky, Ohio, has discovered a process of hardening copper, an art which has been lost since the days of King Solomon. It is well known that the ancients possessed the art of hardening copper and making it equal to the best of steel, but for nearly three thousand years all knowledge of the method has been in oblivion.

What the Freedmen Say About the Bureau.

Reference was made yesterday to reports sent to Washington by General Steadman relative to the Bureau officers being corrupt, oppressing the freedmen, and compelling them to labor for them, or in chain gangs on the streets. It was stated that the freedmen of Wilmington, at a meeting called by General Steadman himself, had expressly contradicted this charge, and that too *before* the report was made. We have since received the proceedings and speeches at that meeting of freedmen, as reported verbatim by Mr. M. L. Williston, and vouched for as correctly reported by four respectable gentlemen whose names are given.

The meeting was called and held on the 6th of May. At this meeting five of the freedmen were selected to speak for their brethren present (about 800) and in the presence of Gen. Steadman made the following, among other statements—in the face of which, directly contrary reports were sent to the New York Herald by its reporters, who followed the "commission," and also to the Secretary of War. We copy as follows:

Mr. Halsey (formerly a slave) said:

As far as I am able to express about the Freedman's Bural, I believe the colored race looks up to, it for protection. As far as I am concerned, remove the Freedman's Bural, and these people will be like the ship in the raging stream without a rudder, we would have no protection at all, and yet, sir, exposed to danger night and day. I care not how a man conducts himself, if he is a colored man, he is exposed to danger. Such prejudices have grown up, that let a man carry himself as he may, he is exposed to danger. (Cries from all parts of the house, "That's so.") So long as we have a refuge to fly to, our enemies fear to carry out their views.

The gentleman,—(turning to Gen. Steedman,) says he is here to find out how we are getting along. I say we are just *squeezing* along under this protection. Many of us are almost *crushing* along. I can venture to say that we have seen the times when the Freedman's Bural *even could* hardly protect us. But with this protection we will drag along, till, at length we hope to be able to stand up."

Mr. John Nixon said:

The Bureau in my judgment, has been a great blessing to both parties, whites and blacks. I believe that without it we would have been unable to get along in quietness. When the people of the State of North Carolina will give up to allow us justice, that is to give us an equality of rights to protect us, we can get along without the Bureau; but unless this is done we cannot get along in quietness without it. I know it is expensive to Government, and we are willing to dispense with that expense when we have our rights. I feel that we ought to maintain it until political rights are given us by the legislature of North Carolina.

Gen. Steedman here interposes "It is about the officers of the Bureau that I wish to learn."

Nixon—I have never had any contention with the Bureau officers. I have heard some complaints, but could never get any definite information that the Bureau was in fault. When these men have turned off any one, there has always been more or less complaint."

Steedman—What was the general opinion among the colored people about these men?"

Nixon—Maj. Wickersham has been judged by some of our people a little unfaithful. Col. Beadle was a patriarch, a good man and true.

Steedman—What has been the nature of the complaints against the officer first mentioned?

Nixon—That he failed to give the black man what was his own justice, and give the white man his own and the black man's too.

Steedman—It has been named that some of the Bureau officers have been interested in plantations, and have compelled black men to labor for them. I have been told if the colored men would not work for them they force them into chain-gangs and set them to work on the streets. (Cries of "Not so." "No, no," from all parts of the house.)

Nixon—I *never* heard of *one* instance of the kind.

Mr. McLaurin—Remove the Freedman's Bureau to-morrow, and in less than two weeks you will have to allay a riot in Wilmington. There is such a prejudice in the hearts of the white citizens that they would pick a fuss for no reason at all. The white man would abuse the black man, and the black man would say something against it, and there would soon be a general riot. We are in danger *now* with the Freedman's Bureau and the troops here to protect us. It would be better if we had been left in slavery and never brought out, than to be left in the hands of our enemies.

It makes no difference how a colored man may carry himself; we are all liable to insult. (Cries of "That's so.") If we say a word in reply, we are imprisoned and have twenty dollars to pay for release, or be in jail until the white man be willing to let us out.

Steedman—Do you think the feeling toward the colored people is improving?

McLaurin—Not fast. (Laughter.)

Steedman—Do you think that the white people show any better disposition toward the colored people than they did six months ago?"

McLaurin—I do not.

Steedman—What class displays the most feeling?

McLaurin—The ruling class.

Gen. Fullerton—How do you know that this feeling exists? Can you give any *instance* to prove that the whites are at heart your enemies?"

McLaurin—If a colored man should happen to touch a white man in passing on the street he would be called a "damned troublesome nigger." The children of the whites are taught to insult colored people and call them "niggers."

Fullerton—How does the Freedman's Bureau prevent you from being abused by your enemies, if they hate you so?

McLaurin—They know the Bureau is here, and that it will give us justice, and so it keeps them in order.

Mr. C. P. Rook next spoke:

I suppose I stand here to represent a part of the community. I believe I express the opinion of four-fifths of this audience when I say that we have no fault to find with the officers of the Bureau. I have visited the Bureau headquarters day after day, and know something about it. Col. Rutherford, in every single instance, has given justice to white and black alike."

The speaker proceeded to state that to his own knowledge there had been a great number of instances of outrage upon the colored people, for which outside of the Bureau there could have been no possible redress, but for which through its agency ample compensation had been rendered. In the country where the power of the Bureau was but feebly exercised constant cruelties and enormities were practised. Multitudes came flocking to the city to claim the protection of the Bureau authorities, begging that if no further guarantee of their safety could be given them, they might at least carry a written voucher of their freedom, with the signature of United States officers appended.

Trial of Major Gee—Jeff. Davis and his Cabinet Responsible for Starving Union Prisoners.

WILMINGTON, N. C., May 16.

Messrs. Wheeler & Lynde:

The trial of Major Gee, late commandant of the Salisbury Prison, now being held at Raleigh, still slowly drags along. Some of the witnesses for the Government, from New England, received their subpœnas last December, and are still held. I have understood that the trial has already cost the Government over $100,000. It will certainly be a month before it closes. Some sixty witnesses will have been examined for the defense at the close of the trial.

I think it can be truly said that there is no standing evidence against Major Gee at the present time.

As each witness gives in his evidence, the guilt of murdering and cruelly starving our men at Salisbury, rests not on Gee, but upon such men as *Jeff. Davis, Seddon, Gardner and Winder.*

It is shown by the evidence that Gee remonstrated to the Richmond authorities against sending so many prisoners to Salisbury, as they could not be cared for comfortably, and that Gee did what he could to relieve their wants. It is not shown that Major Gee spoke harshly or treated other than kindly, any prisoner, but always vice versa. The responsibility rests somewhere, and why not at Fortress Monroe?

I clip the following from The Raleigh Progress, one of the best Union papers in this State.

By publishing it you may serve to remove a great amount of undue prejudice now extant against this man. The Court is composed of unbiased and good officers, (among whom is Col. Wheeler, 28th Michigan, and Col. Hamilton, U. S. A.,) with *one* exception. The Judge Advocate, Maj. Walcott, is apparently prejudiced, and takes advantage of his position to insult the prisoner and even Northern witnesses, whenever opportunity is afforded. He is very unpopular.

W. P. JR.

MAJOR GEE—UNSOLICITED TESTIMONY.

The following letter was written to Gov. Walker by a gentleman well known in many parts of Florida, who, as a Union man, left the State soon after the commencement of the war, and was appointed by President Lincoln consul at Monterey, Mexico. He has but recently returned to Florida:—

TALLAHASSEE, March 17, 1866.

To his Excellency, David S. Walker, Governor of Florida:

SIR,—On my recent return from being a refugee, on account of the late wicked rebellion, I was grieved to learn that Dr. John Gee, of Gadsden county, was being tried for his cruelty to Federal prisoners while in command at the military prison, Salisbury, N. C. I know nothing of the facts, but I know the *man*, have known him *well* and *long*. He was assistant surgeon in Gen. Leigh Read's brigade, Florida war, in 1840 and '41, and beloved by all that shared his acquaintance. In the fall of 1850, when about to return from California, the cholera was raging fearfully in Sacramento city.—(Such distress I never knew.) Dr John Gee threw himself and his fortune into the breach; for weeks not even undressing his person; gathering some from the streets, providing them with rooms, blankets and nursing at his own expense, not even noticing their names. I wish I had power to picture his acts of kindness to the suffering poor, far away from home, no hope of reward except the approval of his own heart. I was newing to his spending in this manner, his own funds till he had not enough left to return home. I came home with him. My knowledge in detail of his kindness, gives me proof that he possessed the noblest attributes of man. He is high-minded, truthful and honorable. I do not believe he could be influenced to dissimulate and misrepresent, even to save his own life. I am fully convinced of the barbarous treatment of prisoners, but *no man* of my acquaintance could I less believe capable of cruelty, than Dr. John Gee, and must hope that yet it may be shown to be not intended cruelty.

Governor, you know I have a right to complain of the abuses of the late rebellion, and verily believe many now released by my government should not have been. Yet, I can't feel that one of the best men I ever knew has turned demon. You can, if you think my remarks worth anything to the cause of humanity, use them as you think best. This token of my feeling is not known or expected by his friends from one who has so publicly been denounced as your humble servant.

Your obedient servant,

C. H. BLOOD.

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child—This valuable combination has been successfully used by physicians and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes protracted sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

An Invaluable Spring Medicine.

DR. J. W. POLAND'S

HUMOR DOCTOR.

This excellent medicinal remedy was first prepared by Dr. P. in 1847, and was then employed with great success in expelling humors from the blood: but in 1848, a medical friend, who was quite celebrated as a physician, especially in the treatment of humors, suggested some important improvements, which were adopted, and which have made it (so the people say,) the very best remedy for all kinds of humors known to "the faculty." This preparation is composed wholly of vegetables, among which are Sarsaparilla, Yellow Dock, Burdock, Noble Pine, Mandrake, Senna and Bloodroot. Suffice it to say, the "Doctor" is used in hundreds of families as a general medicine. Unlike many other popular remedies, it is very grateful to the taste.

Large size bottles 75 cents. Prepared at the NEW ENGLAND BOTANIC DEPOT, Boston. apr16—sn 3md

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, May 24.

SENATE.

On motion of Mr. Wilson, the official committee were ordered to investigate the National Banks, as to how much Government money has been deposited in them within the last year, by whose authority, and whether and to whom interest has been paid thereon.

The joint resolution refusing admission to West Point of all who have taken part in the rebellion, and providing that candidates shall be between 17 and 22 years of age, was considered, without action.

Mr Anthony offered an amendment, that Congressmen shall nominate five candidates from each district, and that the election be made by competitive examination

At 1p. m. the Reconstruction report was taken up.

Mr Stuart made a speech in favor of universal suffrage and universal amnesty.

Mr Johnson moved to strike out the 3d section, when the subject went over until to-morrow.

A joint resolution directing the payment of $100 bounty to all privates and non-commissioned officers of the 1st, 2d, and 3d Indiana regiments was passed.

Mr Sherman submitted a proposition to strike out the 2d and 3d sections of the Constitutional amendment of the reconstruction committee, and insert the following:

"Representatives shall be apportioned among the several States which may be included withid this Union, according to the number in each State of male citizens of the United States ovea 21 years of age, qualified by the laws of said State, to choose members of the most numerous branch of the legislature, and including such citizens as are disqualified, for participating in the rebellion. Direct taxes shall be apportioned among the several States according to the value of real estate and personal property in each State, not belonging to the State or the United States." Ordered to be printed.

The resolution to appoint an editor for the official "history of the rebellion," at a salary of $2500 per annum, was considered and re-committed to the Military Committee.

The Senate then went into executive session.

Adjourned.

HOUSE.

The House concurred in the Senate amendments to the joint resolutions to prevent the introduction of the cholera.

The Freedmen's Bureau bill was taken up.

Mr Stevens moved to amend the 6th section in reference to the Sea Island, by making it read, "When former owners shall apply for restoration of lands the commissioners shall refuse to surrender them." Adopted—76 to 46.

Mr Shellabarger moved to amend by adding the following:—

Provided, That nothing in this act shall be construed to effect the right of any person to recover in proper courts any title to right or possession which said person may have in land held under said field order.

Mr Davis moved to strike out all after the second section.

Mr Brandagee moved to postpone further consideration of the bill until the 2d Monday in December. Rejected—67 to 81.

The morning hour expired, and the bill went over until Tuesday next.

Mr Schenck gave notice that the committee on Military affairs had carefully revised the bounty bill, which he would ask the House to consider to-morrow. One material change is that local bounties are to be deducted from the sum which might otherwise appear due.

The House went into Committee of the Whole on the Tax Bill.

Coffee and spices were relieved from penalties for not having revenue stamps affixed. Photographs, ambrotypes, daguerreotypes and other sun-pictures, were exempted from revenue stames, and subsequently inserted in another paragraph of the bill subjecting them to 5 per cent. tax.

Amendments were offered abolishing stamps on receipts, but Mr Morrill opposed them and they were rejected.

The stamp duty on bottles was amended so as to fix the rates at 1 cent on two pounds and 1 cent more for each additional pound; on bottled or canned meats, fruits and fresh vegetables a stamp duty of 1 cent on bundles of cigar lights containing 25, and one cent additional for every additional 25, was adopted.

The paragraph amending section 179 was extensively modified in text, and a proviso added that in actions for penalties, defendants shall be admitted as a witness, if the informer is a witness, and any person receiving consideration, under threats of informing, shall be fined $2000 and imprisoned one year. Section 10 was repealed.

The free-list section was then reached, and the following added:

Boxes, of wood or paper, for friction matches, cigar lights and wax tapers, springs, faces, and hands for clock, sodium, German silver, in bars or sheets, treenails, wedges, deck-plugs, bags made of paper, cordage and rigging for vessels, rock, ground and calcined gypsum, silex used in the manufacture of glass, window glass of all kinds, cement, drain and sewer pipes, reapers mowers, threshing-machines and separators, mills and machinery for the manufacture of sugar, syrup and molasses from sorghum cane, beets and corn, cotton gins, hand-rakes and grain cradles, spokes, hubs, felloes, poles, shafts and arms for carriages or wagons, wooden handles for plougs, and for other agricultural, household and mechanical tools and implements, and pail teeth, ears and handles.

The paragraph on mineral coal, of all kinds, was amended by inserting "and peat."

The paragraph relating to paintings and statuary was amended by making it read, "original painting, statues and group statuary and casts made therefrom by the artist from the original designs."

The paragraph relating to paper of all descriptions was amended by inserting "except such as is manufactured and used exclusively for wearing apparel."

The paragraph relating to umbrellas was amended so as to read "umbrellas, parasols, and sticks and frames for same."

The paragraph relating to sails, tents, awnings and bags made by sewing from fabrics or articles."

The committee then rose.

The Speaker stated for information of the House, that there were no members desiring to speak on Saturday.

Mr. Morrill gave notice that he would insist upon the tax bill being acted upon until disposed of.

Adjourned.

EUROPEAN & NORTH AMERICAN R. R.—*The Massachusetts Aid Bill Passed!* A despatch received in town yesterday from Boston, brought the gratifying intelligence that the bill granting aid to the European & No. American Railway has passed the House to a third reading by a vote of 113 to 83. This vote undoubtedly makes the final passage of the bill certain. The Legislature of the Old Bay State has shown itself not only liberal and generous, but sagacious to perceive the future interests of its own State.

GRAND LAKE TOAG. We are indebted to Mr W. Patten of Brewer Village, for a specimen of Grand Lake Toag, about the size of an ordinary salmon. It was one of a box full caught by Mr Patten, and was handsome enough to make a fisherman's eyes glisten with joy at the sight. We should be glad to enjoy a few days fishing at that lake.

CORRECTIONS. The vote upon the passage of the bankrupt bill in the House was, yeas 88, nays 59, (not 89 as printed on Wednesday night). The bill passed the House.—Its fate in the Senate is uncertain.

In Mr. Wilson's offered substitute for the reconstruction report in the Senate, read "male citizens of the U. S. over 21 years of age"—not 41, as erroneously sent by telegraph.

In the next substitute offered, read ineligible for "eligible".

Mr. Editor—

My attention being accidentally called to an "editorial" appearing in the "Bangor Democrat" of the 24th inst., in which my name is made use of as an appointee to the "Bangor Collectorship" "under certain contingencies." I embrace this opportunity to state, that I am and desire to be considered a "dead duck" as far as any office under government is concerned, for under the most flattering circumstances, there is now that I know of, no position existing, however honorable or lucrative that I would accept, because I believe I can do better. As to the Bangor Democrat's articles written of late for the purpose of creating "mischief," and catering to a "morbid taste," which one would think ought long since to have satiated itself, I can merely say that soldiers' when necessary can and will fight their own battles, and if an editor repeatedly insists upon being foolish and wasting the very limited supply of ammunition he has on hand, the community among whom he resides, both soldiers and civilians, will feel obliged to apply to his case that old well-worn adage, viz: "Treat a fool according to his folly." CHAS. W. ROBERTS.

FIRE IN ORONO. A two story building near the Basin Mills in Orono was partially destroyed by fire on Wednesday night.—The roof was burned off, but the lower part of the house was saved. Owned by Gen. Samuel Veazie and occupied by Mr Whiting. Loss not ascertained. No insurance.

—A colored man was empanelled on the jury which tried John Gallagher for murder, in Boston, this week.

—An eminent architect of Boston is preparing a design for the "Memorial Hall" to be built at Waterville College in honor of her patriotic sons who gave their lives or their services to their country in the recent war against rebellion. The building is to be 60 feet by 40, situated south of the college buildings, and to embrace a room for a chapel and a library. Estimated cost, $30,000.

—The Belfast Age notes the following recent changes of real estate in that city:—"On Thursday, the William Quimby house on Church street was sold at auction, and bid off by Dr. J. G. Brooks at $2587.50. S.W. Mathews has purchased the house of Edward Baker on Cedar street for $3000; Wm. M. Woods has purchased the house of George Wales, on same street, price $2800; and the latter has purchased the house of Jerome Stephenson, on the same street, at $1850.

—The Portland Argus says that thirteen hundred dollars in scrip were sent by the Horse Railroad Company a few days since to the Assistant Treasurer's office in Boston, and in return the same amount was received in greenbacks, not a bad piece being found in the lot.

—The Grand Lodge of Good Templars for North America held its annual session at Boston this week. All the New England States, New York, Pennsylvania, Delaware, Ohio, Indiana, Illinois, Wisconsin, Missouri, Michigan, Kansas, Kentucky, Iowa, California and Canada West, were represented by delegates, who represent a constituency of nearly 200,000 members.

—A suit has been commenced against the Eastern Railroad by a man residing in Swampscot, to recover damages occasioned by detention till eleven o'clocks of a train advertised to leave Boston at 9. The defence is that the usual notice was given that the train would be delayed.

PARTICULARS OF THE DEATH OF BISHOP BURGESS. The Bishop had been on the Island of Hayti for two months up to the 22d of April. During that time his health and strength had continued very much as during the former two months, and he had attended to Episcopal duties. He remained at Port au Prince a number of days, and obtained several missionaries, and performed the rite of confirmation. He failed to obtain passage on the steamer Crusader, for New York, and took passage on the 25th on board the brig Jane, for Miragoane, where he was to embark on board brig Robert Murray, Jr., for New York. At half eleven o'clock on the morning of the 31 he died suddenly, lying on a mattress on deck, without pain or apparent consciousness that his end was near. The vessel was then about six miles from Miragoane, becalmed. The body was put into the boat, and accompanied by Mrs. Burgess, was taken into port and prepared for transportation. It arrived in New York on Thursday last, and will be forwarded to Gardiner, where the funeral will take place on Wednesday, the 30th inst, at 4 p. m.—[Portland Argus.

GEN. CONNOR. We regret to learn that this distinguished hero is still suffering from his late accident, and that it is impossible to remove him from Danville Junction. It is feared that another operation will have to be performed, and there was to be a consultation of surgeons at that place yesterday.—It is thought that a piece of dead bone still remains in his flesh, which will have to be removed before convalescence can take place.—Portland Press.

—The Portsmouth Chronicle says the inconvenience experienced on account of water at the Navy Yard in past years has been such that an additional reservoir is to be built this season, to contain 200,000 gallons.

—The Boston Traveller says that one-third of the population of Massachusetts can now be found within a circle of twenty miles around Boston.

—A man in Maryland lately died from having his finger pricked and poisoned by the fin of a fish he was handling.

—The idea of annexation to the United States is gaining ground throughout the West Indies.

—An old man, aged 65, who lived alone and in a state of great wretchedness at Saint Maude, France, not having been seen for some days, the police made an entry into the room he occupied, when he was found there lifeless, having apparently expired from apoplexy. Only a sum of 2f. 40c. was discovered in cash, but beneath a heap of rags was found concealed shares and bonds of various railway companies, representing a value of 480,000f. Nothing whatever is known of the miser's family.

—The Alton Telegraph says that a short distance above Hardin, Calhoun county, lives a lady who rejoices in the possession of a cat. Not long ago the cat gave birth to four kittens, which the lady threw into the river and drowned. The next morning, on visiting the place of their nativity, what was her astonishment to find that their places had been filled with four young foxes, which the old cat had probably purloined from their nest. They were taking their nourishment from their adopted mother, just as they would have done if they had been born kittens.

—The New Bedford Mercury tells a story of a witty "Colonel B——" who, when on his death bed and his demise, assured his friends that he could not possibly survive many hours. "Nonsense! Colonel," encouragingly remarked one: "your feet are warm, and no one ever died till the extremities became cold." "Don't tell me that," squealed out the sufferer; "do you think John Rogers' feet were cold just before he died."

—A black eagle was caught in a trap by Charles Abbott, near Turkey Pond in Concord, N. H., last week. The Statesman says his general appearance is like the golden eagle, though rather less in size. The spread of his wings is seven and one-half feet. He had previously feasted on wild ducks caught in the same trap.

—Some shameless libeller suggests a new telegraph to place a line of women thirty steps apart, and communicate the news to the first as a secret.

Gov. Oglesby of Illinois has consented to deliver an oration at the laying of the corner stone of the monument to be erected to the memory of Hon. Stephen A. Douglas. The ceremony is to take place on the 30th of June.

WHERE SHALL BETTER SERVICE BE FOUND? Our secession, rebel, "anti-coercion" neighbor of the "Bangor Democrat," doesn't appear to like the proposition of some of his "democratic" contemporaries, to abandon the name of "Democracy," which he and others have made so "odious," and go into the next political fight simply as the "Johnson Party." This stirs our neighbor's bile. He is evidently afraid of losing his bad pre-eminence as the organ of an out-and-out secession-defending party. For himself he is going to fight it out on that line, and we don't blame him. Shall a man dirty his coat for nothing? Quoting from "the World," he says:

We are going to fight our political fight come weal or come woe, come defeat or come success, as the Democratic party. We are not going to any man, to any organization. We welcome converts; we accept recruits; but if the great principles of that party which gave the United States so much prosperity and so much glory are not sufficient for the future as they have been for the past, we do not know where to find others.

Just so. "As sufficient for the future as for the past." If *that* party and its "principles" have not sufficiently upheld the interests and demands of the slaveholding and anti-Republican aristocracy of the South, where is the party that can do it? Can any "Johnson Party" do more than the democracy have done? Stick to the "democracy" by all means. Your "principles" cannot better be maintained in any other organization.

MR. SEWARD'S SPEECH AT AUBURN. Mr. Seward's positions are taken with great ingenuity. He repudiates all affinity with the Democrats, in fact, he links the rebels and Democrats together as the opponents of harmony; and even in case of the possible failure of the Republicans to effect a settlement, he says the work would have to be done by some new and and yet undeveloped political organization." So, too, he disclaims that the Executive policy is in any personal sense the President's, but was the only one which arose naturally from the situation. In like manner he smooths over the opposition of Congress by affirming that it is not yet deliberately pronounced, nor is it based on essentials. All that is requisite in his view is to begin letting in the loyal representatives of Arkansas and Tennessee, and to abide the future upon the question of approaching representation according to suffrage.

And yet we think it will strike the majority of loyal men that these are serious omissions in Mr Seward's speech, that it does not somehow grapple with with those parts of the reconstruction problem which are the source of the greatest anxiety. And here we may say that his setting aside the term of "reconstruction" in his definition of the crisis, and substituting "reconciliation," will not suit the popular taste any better than President Johnson's favorite word, "restoration." The people say plainly reconstruction, and that is what they mean. Here are four millions of men who have always been slaves, but are hereafter to be citizens; here are six or seven millions who have been belligerent traitors, but now want to have places in the Union again; here is the question of representation to be adjusted on a new basis, the old having passed away; and here are measures to be taken which shall prevent the nation from ever going through another such bloody struggle.

All these things require reconstruction, a matter of justice and statesmanship. Settle that right, and reconciliation, which is a matter of good feeling, will follow sure enough. The North is reconciled now—it has no hostility, no vindictiveness. How is it with the South? On this vital point Mr. Seward is not so explicit as could be wished, for the evidences of submission which he cites are due more to the military triumph of the Government than to the good will of the Southern people. Nor does he have one word to say respecting the security of the rights of the freedmen and their complete incorporation into the body of American citizens. The people feel that these are among the essentials of the reconstruction question, and in passing over them so lightly, Mr. Seward falls short of his old efficiency as a public teacher, and probably falls short of the public expectation at this time. —[Boston Journal.

The long looked for and widely advertised Presidential and Cabinet serenade took place this evening. Its result is as "flat, stale and unprofitable" to the supporters of "my policy" as any one could have desired. A bright moon, a warm atmosphere, and a first class brass band succeeded in getting out a crowd of possibly, fifteen hundred persons, mostly boys and department clerks, glad of any excitement. It was a matter of such common notoriety that the serenade was specially intended to draw out Secretary Stanton, that scarcely half of those visited either the White House or the residence of any other member of the Cabinet. The President, Mr Frederick Seward and Secretaries Welles, Dennison and McCulloch were so well instructed in the parts they were expected to perform in the grand farce, that the serenaders were detained by neither of them more than five or ten minutes; though in that time the Secretary of the Treasury managed to show entire fitness for association with the individual who delivered the notorious twenty-second of February speech. Mr Stanton, evidently not liking the abstract given by Mr Reporter Seward of his extempore remarks in Cabinet meeting, had written out his views at length, and read them from the manuscript. Of these views it is enough to say now, and here, that any copperhead or Johnson man who can find much comfort in them must have something more than even Mark Tapley's faculty for being jolly under adverse circumstances.—[Sp to Boston Advertiser.

Excelsior Hair Restorer.

The only one possessing all the merits claimed for it, and the only

Hair Restorer and Hair Dressing Combined.

It restores Grey Hair to its original color. Makes hair grow on bald heads when falling off from disease; removes Scurf, Dandruff, etc.; a layal all itching; cures sick headache; stops hair from falling off and is all that can be desired for a hair dressing.

It keeps the hair in place much better than any oil or pomatum, and does not soil the finest linen.—It contains no sugar of lead or other mineral so injurious to the hair, and of which most Restorers are composed, but is a purely vegetable compound. It is not a dye, but by supplying the secretions of the capillary glands acts as a Restorer. We challenge the world to produce a single instance where the Restorer has failed when used according to directions. Any one using two bottles of the Restorer

ACCORDING TO DIRECTIONS,

And are not perfectly satisfied with the results will have their money refunded. A single trial will convince the most skeptical of its merits. It is put up in large bottles, and elegantly perfumed, and is easily applied. *Price One Dollar per Bottle.*

NEWSPAPERARCHIVE®

Whig & Courier

If You should e'er Get Married, John.

If you should e'er get married, John,
I'll tell you what to do—
Go get a little tenement,
Just big enough for two!
And one spare room for company,
And one spare bed within it—
And if you'll begin love's life aright,
You'll better thus begin it!

In furniture be moderate, John,
And let the stuffed chairs wait;
One looking-glass will do for both
Yourself and loving mate;
And Brussels, too, and other things,
Which make a fine appearance,
If you can better afford it, they
Will better look a year hence.

Something they must have pictures, John,
Superb and costly too;
Your wife will be a picture, John,
Loth that suffice for you.
Remember how the wise man said,
A tent and love within it
Is better than a splendid house,
With brokerings every minute.

And one word as to cooking, John—
Your wife can do that best;
For love to make the biscuit rise,
Is better far than yeast.
No matter if each day you don't
Bring turkey to your table,
'Twill better relish by and by,
When you are better able.

For all you buy pay money, John,
Money that very day—
If you would have your life run smooth,
There is no better way.
A note to pay is an ugly thing,
(If thing you choose to call it)
When it hangs o'e, a man who has
No money in his wallet.

And now when you are married, John,
Don't try to ape the rich;
It took them many a toilsome year,
To gain their envied niche,
And if you'd gain the summit, John,
Look well to your beginning,
And then will all you win repay
The care and toil of winning.

ICE AS A MEDICINE. Quite marvellous results have lately been noted from the use of ice applied to the spinal nerves. Its frequent application in some severe cases of apoplexy has relieved the patient. It is applied to the lumbar plexus of nerves over the spine, alternated with hot water to the feet. A case of undoubted hydrophobia has been cured by following that treatment. The patient was bound down to the bed, face downward, and a thorough wet cupping from the head down the whole length of the spine followed with ice applications for two or three days uninterruptedly. Pulse and breathing became quiet, pains gradually left him and complete recovery was the result. In the French hospitals the ice treatment in cases of nervous debility, paralysis of the motor nerves, prolapsus uteri, convulsions from teething, and perpetual convulsions, has been successful without a drop of medicine. The great secret of this mode of treatment consists in using the ice long enough to get its tonic effects only, which is a nice point, and requires great care from the medical attendant, as short applications of ice are powerfully neurotonic, while its too lengthy application debilitates the patient.—*Nation.*

CITRIC ACID IN CANCER. The cooling effects of lemon juice are well known. Citric acid is to all intents and purposes crystalized lemon juice, and is often used as a substitute for lemons in making lemonade, etc. An Italian physician, Dr. Brandini, finding that a patient, with a cancer on the tongue, received great relief in eating lemons, was induced to try the effect of citric acid on other cancer patients, which he did much to their relief. In a case of hopelessly incurable cancer, under our own observation, it has been used with the happiest results, and afforded a greater relief from pain than any other application that has been tried. We found that this use of citric acid was not known to the physicians of our acquaintance, and we give it for the benefit of our medical readers. The crystalized acid is used one part by weight, to 90 parts of soft water. The weight of a common nickel cent to a pint of water comes sufficiently near. The solution is applied by moistening a piece of lint, and renewed when the pain returns.

INEXHAUSTABLE IVORY. New Siberia and the Isle of Lokun are, for the most part, an agglomeration of sand, ice and elephant teeth. At every tempest the sea casts ashore fresh heaps of mammoths' tusks, and the inhabitants are able to drive a profitable trade in the fosil ivory thrown up by the waves. During summer, innumerable fisher-men's barks direct their course to this isle of bones, and in winter immense caravans take the same route; all the convoys drawn by dogs, returning charged with the tusks of the mammoth, weighing each from one hundred and fifty to two hundred pounds. The fosil ivory thus obtained from the frozen north is imported into China and Europe, where it is employed for the same purpose as ordinary ivory—which is furnished as we know, by the elephants and hippopotamuses of Africa and Asia. The isle of bones has served as a quarry of this valuable material for export to China for five hundred years, and it has been exported to Europe for upwards of one hundred. But the supply from those strange mines remain undiminished. What a number of accumulated generations does this profusion of tusks and bones imply!

THE APPEARANCE OF THE SUN FROM THE NORTH POLE. To a person standing at the north pole, the sun appears to sweep horizontally around the sky every twenty-four hours, without any perceptible variation during its circuit in its distance from the horizon. On the 21st of June it is 23 degrees and 38 minutes above the horizon—a little more than one-fourth of the distance to the zenith, the higest point that it ever reaches. From this altitude it slowly descends, its track being represented by a spiral or screw with a very fine thread; and in the course of three months it worms its way down to the horizon, which it reaches on the 23d of September. On this day it slowly sweeps around the sky, with its face half hidden below the icy sea. It still continues to descend, and after it has entirely disappeared it is still so near the horizon that it carries a bright twilight around the heavens in its daily circuit.

As the sun sinks lower and lower, this twilight grows gradually fainter till it fades away. On the 20th of December the sun is 23 degrees and 38 minutes below the horizon, and this the midnight of the dark winter at the pole. From this date the sun begins to ascend, and after a time his return is heralded by a faint dawn, which circles slowly around the horizon, completing its circuit every 24 hours. This dawn grows gradually brighter, and on the 20th of March the peaks are gilded with the first level rays of the six months' day. The bringer of this long day continues to wind his spiral way upward till he reaches his highest place on the 21st of June, and his annual course is completed.

The Normans conquered England in the year 1066—just 800 years ago. If at the Norman conquest a locomotive had started to cross the earth's orbit, and had been constantly rattling onward ever since in a straight line at the rate of twenty miles an hour, day and night, making no stop for wood or water, it would yet require the long period of two hundred years to complete the transit.

THE RIGHT ROAD. "It was a first command and counsel of my earliest youth," said Lord Erskine, "always to do what my conscience told me to be right, and to leave the consequence to God. I have always followed it, and I have no reason to complain that my obedience to it has been a temporal sacrifice. I have found it, on the contrary, the road to prosperity and wealth, and I shall point out the same path to my children.

DODD'S NERVINE,

This article surpasses all known preparations for the Cure of all forms of

Nervousness.

It is rapidly superseding all preparations of Opium and Valerian—the well-known result of which is to produce Costiveness and other serious difficulties—as it allays Irritation, Restlessness, and Spasms, and induces regular action of the bowels and secretive organs.

No preparation for Nervous Diseases ever sold so readily, or met with such universal approval. For Fits, Sleeplessness, Loss of energy, Peculiar Female Weaknesses and Irregularities, and all the fearful mental and bodily symptoms that follow in the train of nervous diseases, Dodd's Nervine is the best remedy known to science. Sold by all Druggists.—Price $1.

Notice to the Public!

In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in regard to the most desirable mode of preparing Fluid Extracts.—My efforts being successful—the articles being approved and used by the Medical Faculty—I was desirous of placing them before the public, but hesitated for some time before concluding to resort to newspaper advertising, knowing the prejudice that existed in the minds of many against using advertised *Medicines* or *Nostrums*, but through the advice of friends and those who had used them this objection was overcome.

After 18 years' exertion, commencing in a small way, the popularity of my articles has extended to all parts of the United States, and widely throughout foreign countries—and this in the face of much opposition. Every means has been resorted to by unprincipled dealers since their merit and success have been known—such as advertising larger bottles at less price, censuring all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been successful.

MY OBJECT

In this notice is to make facts known to the public and respectable dealers, believing, after so many years' exertions, that the Druggists will discountenance such proceedings, and that the reputation of my articles may not be damaged by use of inferior or spurious ones.

Knowing that many may read this article who are unacquainted with me, I append a few remarks from those of my native city, and whose names are known in all parts of the world:

"Being personally acquainted with Mr. H. T. Helmbold, it affords me pleasure in stating I have been most favorably impressed with his energy and integrity, and gratified at his success."

WM. WEIGHTMAN,
Firm of Powers & Weightman,
Ninth and Brown Streets, Philadelphia.

(Evening Bulletin, Philadelphia.)

"When on a visit to the city of New York a few days since, I was induced to call on our old friend and townsman Mr. H. T. Helmbold, Druggist, 594 Broadway, New York. His store is a *Model*—a perfect *Gem*—the handsomest of any kind we have ever had the pleasure of viewing, a d so extensive, being 34 feet front, five stories in height, and over 200 feet deep. It indeed affords us much pleasure to know that he has been so successful, and it is ample evidence of the merits of his articles—as in our whole business experience we have not known of the success of any articles without *Merit*—advertising merely bringing the name before the people."

[Boz on Herald.]

"We do not like to advertise worthless wares, or articles calculated to deceive our readers; and when we see an advertiser like Mr. Helmbold, from whom we have known for years, gradually extend his advertising from year to year until he becomes the largest advertiser in the United States, we are satisfied that the statements in regard to his articles *must be correct.*"

The writer reluctantly inserts the above, and would not do so were he not a stranger to many; and concludes by stating the names of his articles, and the diseases for which they have been used by many thousands with complete success.

(ADVERTISEMENT.)

HELMBOLD'S EXTRACT OF BUCHU

Will cure all diseases of the Kidneys and Bladder. Cures Pain or Weakness in the Back, Sciatica, &c. Cures Weak Nerves, Loss of Memory, Trembling, Dimness of Vision.

Helmbold's Fluid Extract of Buchu

Is a pure fluid extract, and not a weak tea or infusion. It is the one thing needful for all complaints incident to Females. For particulars send for Circular.

HELMBOLD'S FLUID EXT. BUCHU

Cures Gravel and Dropsical Swelling existing in Men, Women or Children; in fact, all diseases requiring the aid of a Diuretic. It is the greatest Tonic and Diuretic known—perfectly safe, pleasant in taste and odor, and immediate in its action.

HELMBOLD'S
Fluid Extract of Sarsaparilla
HIGHLY CONCENTRATED.

One bottle equivalent in strength to one gallon of the Syrup or Decoction.

It reaches the seat of the disease immediately, expelling all HUMORS of the BLOOD.

And Beautifying the Complexion.

These articles, being of such strength, the dose is exceedingly small. From this fact, it is used in the United States Army Hospitals and public Sanitary Institutions throughout the land.

☞ Cut out this advertisement and send for it, and by this means avoid Counterfeits.
☞ *To insure the genuine, cut this out.*
☞ Ask for Helmbold's. Take no other!
☞ Sold by all Druggists everywhere.

DR. LAROOKAH'S
Sarsaparilla Compound,

For the Speedy and Permanent Cure of *Liver Complaints, Scrofula or King's Evil, Eruptions, and all Eruptive Diseases of the Skin, St. Anthony's Fire, Salt Rheum, Pimples, Pustules, Blotches and Boils; Rheumatic and Neuralgic Pains in the Bones, Side and Head; for the various Weaknesses to which Females are liable; Dyspepsia, Debility, Emaciation, Dropsy, and all Diseases resulting from or in an impure state of the Blood.*

IT is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Lead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by *Scrofula* taint, this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula, which deranges the stomach, and renders it unhealthy. Indigestion is not always caused by Scrofula, whom it is, this Sarsaparilla Compound is a ready cure.

NEURALGIA, HEADACHE and various disorders of the nervous system frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

ERYSIPELAS, Boils, Tumors, or Salt Rheum, Ulcers, Sores, &c. Moderate doses three times a day will usually effect the cure of the above complaints, but often requires considerable time.

Price one dollar per Bottle. Six bottles for five dollars.

DR. LAROOKAH'S
ALL-CONQUERING

A Superior Remedy for Coughs Colds, Bronchitis Consumption, and all Diseases of the Throat & Lungs.

Unsurpassed by any Medical Discovery in the World. DR. E. R. KNIGHTS, Proprietor,
Melrose, Mass.

Price 50 Cents and $1.00 per Bottle.

DR. KNIGHTS'
Oriental Hair Restorer.

After a long series of experiments, this article, as it is now offered to the public, is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands who, from sickness or other causes, have become prematurely grey; and others, who, in the sere and yellow leaf of life, would retain, as far as possible, the semblance of youth. Dr. KNIGHTS' ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color*, and is the only preparation of the kind upon which the public can place any reliance. *It has never been known to fail in a single instance*, and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

PRICE 75 CENTS PER BOTTLE.
Prepared by
E. B. KNIGHTS, Chemist, Melrose, Mass.

CONSTITUTION

LIFE SYRUP.

A positive and specific remedy for all disease originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

L

SOROFULA,
STRUMA, GLANDULAR SWELLINGS,
ULCERATION, KING'S EVIL,
ERYSIPELAS, SALT RHEUM

This taint (HEREDITARY and ACQUIRED,) filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years standing have been cured.

I

NERVOUSNESS.

Nervous Debility, Shattered Nerves,
St. Vitus' Dance, Loss of Power,
Confusion of Thoughts, Epilepsy.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than in promise.

MERCURIAL DISEASES.

Salivation, Rotting of Bones,
Bad Complexion, Aches in Bones,
Feeling of Weakness, Depression of Spirits.

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

☞ CONSTITUTION LIFE SYRUP

Eradicates, root and branch, all Eruptive Diseases, of the Skin like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS,

Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsey of the limbs, abdomen, and in the female, Dropsey of the ovaries and womb, generally accompanied with inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sympathetic or Organic Disease of the Heart, as palpitation, Disease of the Valves, producing a grating or filing sound, Dropsey of the Heart Case and all the affections of this important organ (persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

BROKEN DOWN AND DELICATE CONSTITUTIONS SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIZZINESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE, AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

R

FOR ALL FORMS OF
Ulcerative Diseases,

Either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD OR SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver, are very unpleasant to the young wife and mother. A few bottles of CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposit which is directly under the skin.

In the diseases of the Liver, giving rise to Langour, Dizziness, Indigestion, Weak Stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms will be relieved by the use of CONSTITUTION LIFE SYRUP.

U

☞ AS A GENERAL BLOOD PURIFYING AGENT THE LIFE SYRUP STANDS UNRIVALLED BY ANY PREPARATION IN THE WORLD.

THE RICH AND POOR
are liable to the same diseases. Nature and Science has made the CONSTITUTION LIFE SYRUP for the benefit of all.

PURE BLOOD
Produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

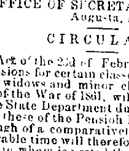
STATE OF MAINE.



OFFICE OF SECRETARY OF STATE,
Augusta, March 1, 1866.

CIRCULAR.

THE Act of the 22d of February last, providing pensions for certain classes of disabled soldiers and the widows and minor children of those deceased) of the War of 1861, will necessarily impose upon the State Department duties somewhat analogous to those of the Pension Bureau at Washington, though of a comparatively limited character. Considerable time will therefore be required by the Council, in whom is vested the supervision of the new department of business, in determining the mode of procedure and preparing the requisite blanks therefor.

Early in the ensuing May session of that Honorable body, forms and regulations, with a copy of the law, will be promulgated.

Applicants under this statute, who are, or may be, in the receipt of a pension from the United States Government, will not require the assistance of agents or attorneys in preparing or presenting their claims for the State pension.

No. 78 State Street, (opposite Kilby street,) Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Re-issues, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications EITHER APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such his part reads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention be stowed on their cases, and at very reasonable charges.
